Why Pretty Teeth

Are shown everywhere today

Look about you. Note how many teeth now gleam. Note how people show them as they never did before.

Millions of people are brushing teeth in a new way. If you don't know the good results, make this free test.

Fight dingy film
One object is to fight the film on teeth—that vicious film you feel it clings to, enters crevices and stays. Food stains, etc., discolor it, then it forms dingy coats. Tartar is based on film.

No ordinary tooth paste effectively combats film. So, under old methods, beautiful teeth were seen less often than today.

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea.

Very few people escaped such troubles under old ways of teeth cleaning.

New ways found
Then dental science found two film combatants. One acts to curdle film, one to remove it, and without any harmful scoring.

Able authorities proved these methods effective. Then dentists everywhere began to advise their use. A new-type tooth paste was created, based on modern research. The name is Pepsodent. In that tooth paste are embodied these two great film combatants.

Five effects
But Pepsodent brings five effects. These are very important. It multiplies the alkalinity of the saliva. That is there to constantly neutralize the acids which cause decay.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids.

Those are Nature's ever-present tooth-protecting agents. Every use of Pepsodent gives them manifold effect.

Pepsodent also polishes the teeth so film adheres less readily.

You see them now nearly the world over. These gleaming teeth are now seen nearly the world over. Careful people of some fifty nations are now using Pepsodent. And those whiter teeth mean safer teeth. They mean a new dental era.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the vicious film. See how teeth whiten as the film-coats disappear.

Local Druggists Guarantee Rheuma For Rheumatism
What chance does any sufferer take when Rheuma is guaranteed to banish rheumatism, lumbago, gout and kidney ailments, at once?

Why not investigate this offer? Talk to Lee & Osgood Co. about it. Rheuma must drive rheumatic poison from the system, bring swollen joints back to normal and relieve all agony, or it costs nothing.

People so crippled with rheumatism that they could not walk have been absolutely freed from the iron grasp of the demon, rheumatism, with the Rheuma treatment. A few hours after the first dose Rheuma begins to dissolve the uric acid and drive it from the body through the natural channels.

Everybody can afford Rheuma—it's not expensive and money back if not entirely satisfied.
